

ALSCAN

Your Proven Enterprise Security Partner

Alscan is more than just a security system installer—we are your collaborative partner in protecting your business. By combining proven best practices with cutting-edge technology and personalized design, we deliver integrated security solutions that are robust, scalable and results-driven.

With more than 40 years of experience as a leader in physical security integration, Alscan designs and delivers customized security solutions for businesses.

We combine advanced technology with a highly trained team to safeguard your facilities and give you confidence in your security systems. Our team works closely with you to identify vulnerabilities, address potential threats and recommend targeted solutions that align with your unique needs. Manufacturer-certified technicians then ensure precise installation and optimal system performance, all backed by our exceptional service.

Our Solutions

ACCESS CONTROL & PLC SYSTEMS

Scalable, automated entry solutions that manage who has access, when and where, ensuring secure perimeter control.

PERIMETER PROTECTION

Advanced detection and barrier systems that proactively prevent unauthorized access and strengthen facility security.

COMMERCIAL SOUND SYSTEMS

High-quality audio solutions designed to deliver clear communication in any business environment, even in challenging noise conditions.

REMOTE MONITORING

Continuous, real-time system oversight providing visibility, responsiveness and peace of mind around the clock.

EMERGENCY NOTIFICATION SYSTEMS

Rapid, reliable alerting platforms that ensure critical messages are delivered instantly when every second matters.

SECURITY ASSESSMENTS & SYSTEM DESIGN

Expert evaluations that identify vulnerabilities and deliver tailored designs to mitigate risks before they become threats.

NETWORK INFRASTRUCTURE

Robust, scalable connectivity designed to minimize downtime, eliminate bottlenecks and support future growth.

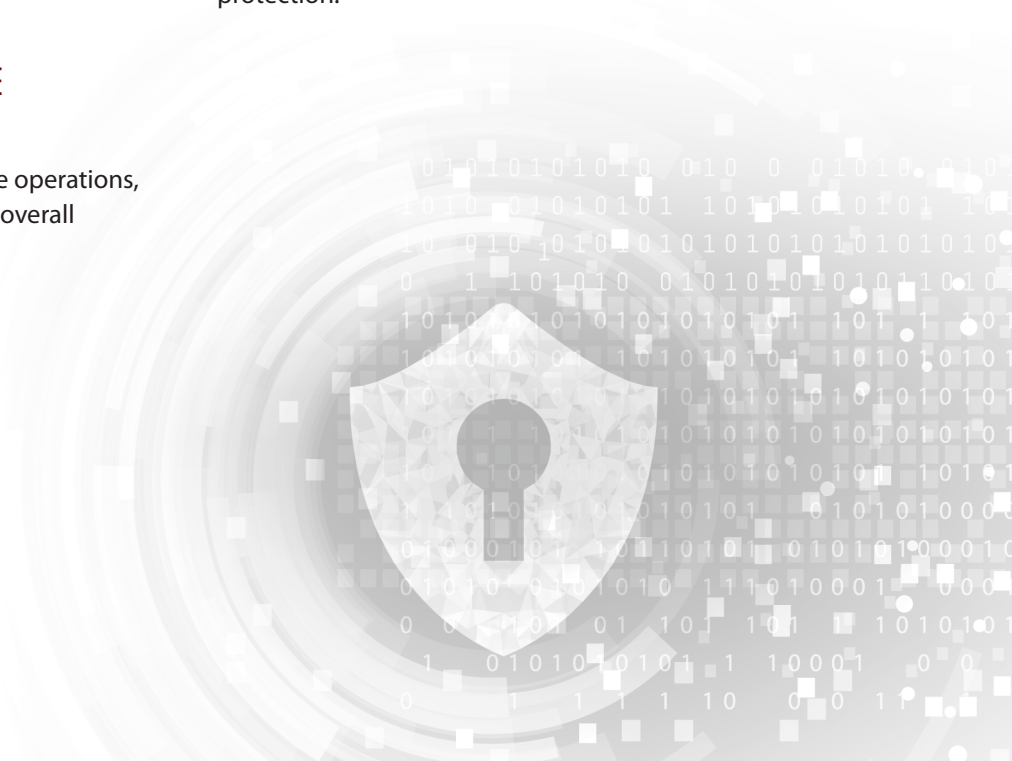

VIDEO SURVEILLANCE

State-of-the-art camera and monitoring systems that eliminate blind spots and deliver actionable intelligence for enhanced protection.

SYSTEM INFRASTRUCTURE INTEGRATION

Unified platforms that streamline operations, reduce complexity and improve overall efficiency.

Our Process

At Alscan, every partnership begins with a deep understanding of your organization and the unique challenges you face. By evaluating your facilities, daily operations and security risks, we design solutions that protect your people, property and assets with precision.

Our proven process includes:

ON-SITE DISCOVERY – We start by visiting your facility to learn about your operations and most pressing security concerns.

NEEDS & RISK ASSESSMENT – Our team evaluates potential threats, reviews your budget and identifies areas of vulnerability.

CUSTOM SOLUTION DESIGN – We develop a tailored security strategy that aligns with your infrastructure and risk profile.

TECHNOLOGY SELECTION – With an equipment-agnostic approach, we recommend the best technology to meet your objectives and budget.

PROPOSAL & REVIEW – We provide a detailed proposal outlining costs, implementation timelines and key project milestones.

PROFESSIONAL INSTALLATION – Once approved, our certified technicians implement your solution with minimal disruption to operations.

TEAM TRAINING – We ensure your staff is equipped with the knowledge and skills needed to fully utilize your new systems.

THIRD-PARTY MONITORING INTEGRATION – When desired, we connect you with trusted monitoring partners for continuous oversight.

24/7 MAINTENANCE & SUPPORT – Our commitment doesn't end at installation; we provide around-the-clock service to keep your systems performing at their best.

Markets Served

Alscan delivers tailored security solutions across a wide range of industries, each with its own unique challenges and requirements:

COMMERCIAL OFFICES Advanced technologies that foster safe, secure work environments for employees and visitors.	EDUCATION Comprehensive security measures that protect students, faculty and staff while supporting a safe learning environment.	INDUSTRIAL & MANUFACTURING End-to-end systems that protect high-value assets, facilities and personnel.
DATA CENTERS Customized physical security and access control solutions designed to safeguard critical information assets.	GOVERNMENT Compliant, reliable, and customized security infrastructure for local, state, and federal facilities.	NATIONAL ACCOUNTS Scalable, consistent security solutions that deliver reliable protection across multiple locations.
DETENTION FACILITIES Enhanced visibility and control systems that strengthen safety and security within correctional environments.	HEALTHCARE Solutions that promote patient safety, ensure regulatory compliance and mitigate risks with advanced monitoring and access control.	UTILITIES Robust protections for critical infrastructure to deter threats, prevent disruptions and maintain operational continuity.

As a long-standing partner to healthcare providers, government agencies, utilities and other highly regulated industries, we understand the challenges of compliance and the importance of reliable protection. Leveraging deep industry knowledge, advanced system design and innovative security technologies, we help you meet regulatory requirements while strengthening your overall security posture.
